

Item No. 20018599 - \$99.00

## Blower Impeller Removal Tool

### Product Features

Sonny's Blower Impeller Removal Tool, is the perfect tool to use for a quick and safe removal of the blower impellers from taper-locks.

### Removal Instructions:

**STEP 1:** Remove all bolts from taper-lock

**STEP 2:** Place opening of removal tool over the taper-lock, make sure the opening rests completely flat against the surface of the impeller.

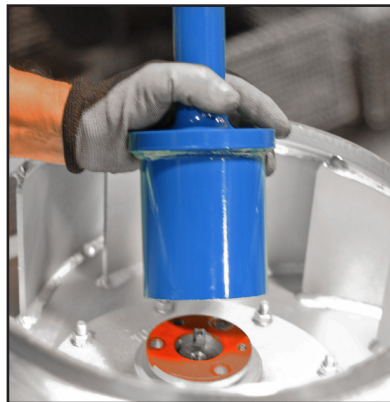

**STEP 3:** With your hand firmly placed around the base of the handle, hit the tool with a heavy hammer (several hits might be required depending on how long the blower has been installed). This will completely separate the impeller from the taper-lock.
